

Curriculum Vitae

Viola Camilla Scoffone

PERSONAL INFORMATION

Name: **Viola Camilla**

Surname: **Scoffone**

Date of birth: 04-01-1985

Nationality: Italian

EDUCATION/TRAINING:

- **October 2009 - October 2012: PhD Student** in Genetic and Biomolecular Sciences, Doctoral Degree School at the University of Pavia.
Thesis title: "Part I Regulatory aspects of NAD biosynthesis in *Bacillus subtilis*-Part II Strain improvement for γ -PGA production in *Bacillus subtilis*."
Scientific supervisor: Prof. Alessandra M. Albertini. Laboratory of Molecular Genetics, Department of Biology and Biotechnology, University of Pavia.

- **October 2007 - September 2009: Master Degree** in "Biologia Sperimentale ed Applicata", at the University of Pavia.
Thesis title: "Regolazione trascrizionale della sintesi *de novo* del NAD in *Bacillus subtilis*: analisi mutazionale del regolatore NiaR.
Scientific supervisor: Prof. Alessandra M. Albertini. Laboratory of Molecular Genetics, Department of Biology and Biotechnology, University of Pavia.
Final mark: 110/110 cum laude

- **September 2004 - July 2007: Bachelor Degree** in "Biotecnologie" at the University of Pavia.
Thesis title: "Costruzione di un ceppo di *Bacillus subtilis* per la mutagenesi mirata di NadR, regolatore della sintesi *de novo* del NAD(P)".
Scientific supervisor: Prof. Alessandra M. Albertini. Laboratory of Molecular Genetics, Department of Biology and Biotechnology, University of Pavia.
Final mark: 109/110

POSITIONS and RESEARCH ACTIVITY

January 2021 – Today Postdoc, under the supervision of Dr. Giulia Barbieri and Dr. Silvia Buroni, Department of Biology and Biotechnology, University of Pavia. **Research fields:** 1) characterization of a *Streptococcus agalactiae* strain carrying the deletion of the gene *codY* 2) molecular characterization of a new drug effective against *Staphylococcus aureus* *Pseudomonas aeruginosa* and *Burkholderia cenocepacia*.

September 2019 Visiting researcher at the Laboratory of Dr. Giulia Manina, Microbial Individuality and Infection Unit, Department of Cell Biology & Infection, Institute Pasteur, Paris.

June 2018 Visiting researcher at the Laboratory of Dr. Giulia Manina, Microbial Individuality and Infection Unit, Department of Cell Biology & Infection, Institute Pasteur, Paris.

January 2018 – December 2020 Postdoc, on translational research, Department of Biology and Biotechnology, University of Pavia. **Research fields:** studies on the *B. cenocepacia* cell division machinery. (Assegno di tipo A e B)

November 2016 – December 2017 Postdoc, under the supervision of Prof. Giovanna Riccardi, Department of Biology and Biotechnology, University of Pavia. **Research fields:** molecular characterization of the cellular target of a new drug effective against *Burkholderia cenocepacia*. (Assegno di tipo B).

November 2015 – November 2016 Fellowship granted by the Italian Cystic Fibrosis Research Foundation, research project: “Inhalable formulations of new molecules effective against *Burkholderia cenocepacia*: from *in vitro* to *in vivo* applications” (FFC#19/2015), under the supervision of Prof. Giovanna Riccardi, Department of Biology and Biotechnology, University of Pavia. **Research fields:** 1) identification and characterization of the cellular target of new drugs effective against *Burkholderia cenocepacia*; 2) studies on AHL-synthases of *B. cenocepacia*.

November 2013 – November 2015 Postdoc, under the supervision of Prof. Giovanna Riccardi, Department of Biology and Biotechnology, University of Pavia. **Research fields:** identification and characterization of new drugs active against *Burkholderia cenocepacia* and *Mycobacterium tuberculosis*. Studies on the role of RND drug efflux transporters in the intrinsic antibiotic resistance of *Burkholderia cenocepacia*. (Assegno di tipo B).

November 2012 - November 2013 Fellowship funded by the Italian Cystic Fibrosis Research Foundation, on the research project: “A very promising drug against *Burkholderia cenocepacia*” (FFC Project#10/2012), under the supervision of Prof. Giovanna Riccardi, Department of Biology and Biotechnology, University of Pavia. **Research fields:** characterization of efflux pumps as mechanism of resistance in *B. cenocepacia*. Expression and purification of RND-4 efflux pump of *B. cenocepacia*, studies on the TetR family transcriptional regulator of the RND-4, BCAL2823 in *B. cenocepacia*.

- **Graduate Career: October 2009 - October 2012** PhD student at the Laboratory of Molecular Genetics, under the supervision of Prof. Alessandra M. Albertini and Prof. Alessandro Galizzi, Department of Biology and Biotechnology, University of Pavia. **Research fields:** studies on the transcriptional regulation of NAD biosynthesis in *Bacillus subtilis*. Site directed mutagenesis of the NiaR regulator, expression and purification of recombinant NiaR and NiaR mutants. The NAD pathways of selected mutants were evaluated *in vivo*, by extensive microbiological techniques, and *in vitro* by biochemical assays.

Characterization of *B. subtilis* natural polymer γ -PGA: expression and purification.

- **Early career: 2006-2009** Thesis internship at the Laboratory of Molecular Genetics, under the supervision of Prof. Alessandra M. Albertini, Department of Biology and Biotechnology, University of Pavia. **Research fields:** studies on the NAD biosynthesis regulation in *B. subtilis*.

TEACHING EXPERIENCES:

From 2007 to 2013: Tutor of “Genetica II e Laboratorio” course of Bachelor degree in Biotechnology (curriculum biomolecolare) and of “Genetica II e Laboratorio di metodologie genetiche” course of Bachelor degree in Biological Sciences (curriculum biomolecolare).

From 2017 to today: Tutor of “Laboratorio integrato di Biotecnologie molecolari; modulo di Microbiologia”, course of Bachelor degree in Biotechnology.

January 2021: Seminars for “Laboratorio Integrato di Biotecnologie molecolari; modulo di Microbiologia” (6 hours), course of Bachelor degree in Biotechnology.

From 2018 to today: “Cultore della Materia BIO/19 – Microbiologia generale”

Co-supervisor of 13 thesis: Bachelor degree in Biotechnology (5); Bachelor degree in Biological Sciences (2); Master degree in Advance Biotechnology (3); Master degree in Experimental and Applied Biology (1) and Master degree in Molecular Biology and Genetics (2).

TECHNICAL SKILLS AND COMPETENCES

Microbiological techniques

Growth and manipulation of different microorganisms, including *Escherichia coli*, *Bacillus subtilis*, *Burkholderia cenocepacia*, *Staphylococcus aureus* and *Pseudomonas aeruginosa*. Screening of bacterial phenotypes (biofilm formation, swimming and swarming motility, protease production, siderophores production). Minimal inhibitory concentration (MIC) determination of antibiotics and other compounds. β -galactosidase activity assays.

Molecular and cellular biology techniques

Methods for analysis and manipulation of nucleic acids, recombinant DNA cloning techniques, DNA and RNA extraction from bacterial cells, site directed mutagenesis. DNA fluorescent labeling. Rapid amplification cDNA Ends (5' RACE), Real time PCR.

Recombinant protein expression and purification, FPLC and HPLC chromatography techniques. Western-blotting. Spectrophotometric assays. Protein crystallization techniques. *In vitro* protein-DNA interaction analysis through Electrophoretic mobility shift assay (EMSA).

Fluorescence microscopy – Live cell imaging. Time lapse microscopy. Electron microscopy (TEM) basic techniques.

LANGUAGES:

Mother tongue: Italian

English: good knowledge

COMPUTER SKILLS:

Thorough knowledge of Windows and Mac operating systems.

Excellent knowledge of Office Suite (Word/Excel/PowerPoint/Publisher), Adobe Photoshop and Adobe Illustrator.

Specific programs: Image J, Invitrogen VectorNTI, GeneConstruction Kit, Swiss-PDBViewer, JMol.

Bioinformatics tools: BLAST, ClustalW, Chromas, Primer3, EXPASY proteomics server, RAST annotation server and NCBI database.

Awards:

- Gerd Döring Award 2017 from European Cystic Fibrosis Society.
- Awarded with a Post-Doctoral fellowship on translational research at the Department of Biology and Biotechnology, University of Pavia.

Reviewer activity:

Reviewer for research articles in the field of molecular microbiology: Antibiotics-Basel, Microorganisms, Molecules. Reviewer board member of Antibiotics and review editor of Frontiers in Microbiology and Frontiers in Genetics.

Membership:

Member of the Italian Society of General Microbiology and Microbial Biotechnology (SIMGBM).

Participation to national and international projects:

- From January 2021 to present: Participant to the project 2017-0785 "Exploring the role of the transcriptional regulator CodY in the pathogenesis of neonatal Group B streptococcal meningitis" founded by Cariplo foundation, (PI: Dr. Giulia Barbieri, University of Pavia, Italy).
- From 2019 to present: Participant to the project "Next-generation antibacterials: new targets for old drugs and new drugs for old targets" which was funded by the Italian Ministry of Research under the PRIN 2017. (PI: Prof. Paolo Visca, University of Roma TRE, Italy).
- From 2017 to 2020: Participant to the project "*Burkholderia cenocepacia* divisome as a new target to hit a rare cystic fibrosis pathogen". Blue Sky Research, University of Pavia. (PI: Dr. Silvia Buroni). Collaborations: Dr. Giulia Manina, Institute Pasteur (France); Prof. Federico Forneris, University of Pavia (Italy).
- From 2017 to 2019: Participant to the project "New inhalable compounds against the CF pathogen *Burkholderia cenocepacia*". Cystic Fibrosis Foundation 2017 (PI: Prof. Giovanna Riccardi). Collaborations: Dr. V. Makarov, Bakh Institute of Biochemistry Moscow (Russia), Prof. F. Ungaro, University of Naples (Italy); Dr. A. Bragonzi, San Raffaele hospital Milan (Italy); Prof. S.T. Cardona, Manitoba University (Winnipeg, Canada); Prof. F. Forneris, University of Pavia (Italy).
- From 2015 to 2017: Participant to the project "Inhalable formulations of new molecules effective against *Burkholderia cenocepacia*: from *in vitro* to *in vivo* applications". Fondazione per la Ricerca sulla Fibrosi cistica 2015 (PI: Prof. Giovanna Riccardi). Collaborations: Prof. T. Coenye, Gent University (Belgium), Dr. V. Makarov, Bakh Institute of Biochemistry Moscow (Russia), Prof. F. Ungaro, University of Naples (Italy); Dr. A. Bragonzi, San Raffaele hospital Milan (Italy).
- From 2012 to 2014: Participant to the project "A very promising drug against *Burkholderia cenocepacia*". Fondazione per la Ricerca sulla Fibrosi cistica 2012 (PI: Prof. Giovanna Riccardi). Collaborations: Prof. R. Fani, University of Florence (Italy); Prof. T. Coenye, Gent University (Belgium); Dr. V. Makarov, Bakh Institute of Biochemistry Moscow (Russia).

SCIENTIFIC PRODUCTION

Author of **20 publications** on international peer-reviewed indexed journals (**11 as first author**), 2 book chapters and 19 communications to national and international congresses (4 of which selected for oral presentation).
