"Lazzaro Spallanzani"

A human stem cell-derived organoid model of the trigeminal ganglion

23 February, 2026 | 11:00 AM

Aula FALASCHI (IGM, CNR)

About the speaker

**Dr. Oliver
HARSCHNITZ**

Oliver Harschnitz is a group leader at Human Technopole at the Centre for Neurogenomics. Oliver obtained his medical degree at the University of Maastricht (The Netherlands) in 2009 and completed his PhD at Utrecht University (The Netherlands) in 2017, before moving to New York for his postdoctoral work in the lab of Lorenz Studer at Sloan Kettering Institute (USA). His research group focuses on the development and application of a wide range of cutting-edge human pluripotent stem cell models to better understand the molecular mechanisms that underlie viral encephalitis and inborn errors of immunity.

Host: Prof. Anna Kajaste-Rudnitski

Biology and Biotechnology
