Fixing the Foundations: Extracellular Matrix Remodelling as a Therapeutic Target in ALS

Prof. Silvia Pozzi

Friday, 18th, 2026
14:00 – 15:00
ROOM
Buzzati-Traverso

Silvia Pozzi *is an Associate Professor in the Department of Psychiatry and Neuroscience, Faculty of Medicine, Université Laval, and holds a Tier 2 Canada Research Chair in Central and Peripheral Cellular Networks in ALS. Her laboratory at the CERVO Brain Research Centre in Québec City studies the cellular and molecular neurobiology of ALS. Her work focuses on how non-neuronal cells and the extracellular matrix contribute to motor neuron degeneration, with the goal of identifying new therapeutic target*
